[Regd.] Postcard 7010.

CARTE POSTALE.

TUCK'S POST CARD.

POSTKARTE

Victoria Bridge is an excellent example of the suspension type. It is built of steel and iron, resting on concrete piers, with a central span of 110 feet, and two end spans of 40 feet each. It was erected by public subscription in commemoration of the record reign of Queen Victoria.

(FOR ADDRESS ONLY.)
